Enter your Company name	Item Holdings Ltd.	<p><b>IMPORTANT NOTICE:</b></p> <p>This approach is not applicable to power generation emissions. This approach is not applicable to assessing and evaluating company targets. Therefore, it is approved by the Science Based Targets initiative, companies need to make sure their target(s) fulfil the SBT criteria. Please review the SBT Step-by-Step Process to access the latest criteria and resources: <a href="https://www.sciencebasedtargets.org/step-by-step-process">https://www.sciencebasedtargets.org/step-by-step-process</a></p> <p>Also please note that the SBT assesses "forward-looking" ambition of target(s) by using the year the target is submitted to the initiative (or the most recent GHG inventory). For further information, consult the SBT Corporate Net-Zero Standard: <a href="https://www.sciencebasedtargets.org/resources/net-zero-standard-criteria.pdf">https://www.sciencebasedtargets.org/resources/net-zero-standard-criteria.pdf</a></p> <p>Please help us improve this tool by reporting issues related to functionalities and formatting.</p> <p><b>Update notification:</b> Please note that as of July 15th 2022, SBT Tool versions 1.2.2 and earlier are no longer supported.
